IN THIS CITY BROUGHT TO AN END**

The greatest circulation campaign ever held in a town the size of Redwood City came to a close Wednesday night at seven o'clock when the Times-Gazette closed its doors for the night. It is doubtful if a paper of this size has ever had a larger circulation than the Times-Gazette now has reason to boast of. Many hundreds of new subscribers have been secured and the advertisers may now feel that their advertising goes into almost every household in the city covered by the Gazette territory.

Miss Rose Broggi of Menlo Park was the highest bidder for the first Honolulu and also the ten dollars in cash which was offered as a special prize for the first subscriber.

Miss Frank Wentworth of Redwood City has won the other trip to Honolulu.

From the beginning of the campaign both of these club members have been conspicuous for their most gratifying features of it all is that all subscriptions turned in were for the Redwood City Club.

Redwood City has always had a warm spot in her heart for her previous knowledge of the people when she was on the San Francisco Peninsula.

The only regret of the Times-Gazette management is that all who have been subscribers for the past year the non prize winners who were active during the campaign will receive a cash prize of \$10.00. The subscriptions turned in by them, as there are really no losers.

The Redwood City Club members may be taken at any time that is convenient for them.

It is hoped that the points cashed will be a surprise to many but from the first the Club Members have been given the opportunity to cash as required by the rules of the campaign. This was done in order that the members would be able to see to the exact standing of the campaign and thus give all a "fair game" and to show the standing of the club members.

them disobeyed. The breaking of one law causes a disregard for every other law.
If the Wright Enforcement Act is ratified by the voters of the state it will be necessary for local police officers to assist federal officers in putting down boot-legging. Personally we can't see why any right thinking person would wish to support a boot-legger. Vote Yes for number 2.

FRIEND WILLIAM RICHARDSON

The republicans of California must elect Friend W. Richardson governor of California. Mr. Richardson received the republican nomination for a fair and honorable fight. He beat a good man. The electors had faith in Mr. Richardson and they would not have given him the support he received.
Our democratic friends are trying to make capital of Governor Stevens' defeat in order that their candidate may be elected. They try to make themselves think, and others believe that this will be a democratic year. It will not. We know hundreds of Stevens' men who will vote of Richardson. Every good republican should vote the republican ticket so far as the gubernatorial nomination is concerned.

A PLAYGROUND FOR REDWOOD

The committee appointed by the Chamber of Commerce to put over the "Playground" for Redwood City has made a good start. We are with them and will support them every step of the way. We hope they will work for a sum large enough to enable them to not only get the playgrounds but to build a community house, where our boys and girls and men and women can congregate and have a good time.

FOOTBALL

Interest in football is now the all absorbing topic of our daily papers. From the results of recent games it appears that the University of California again has a "Wonder Team." It also appears that Stanford has a very ordinary organization of grid iron stars. People wonder why. One reason that might be urged is that the U. of C. has a wider field to pick from. This may be a reason, but back in the east, little Center college, with only a few hundred students can send out a team yearly that makes the big fellows sit up and take notice. A thing that may have something to do with the matter over here is the fact that Stanford is rapidly developing into a rich man's college. When Senator Stanford died he left a college. He wanted a place where poor boys could go and get an education. Now with the entrance fees and matriculation charges a poor boy has little chance at Stanford. We do not pretend to know much about athletics, but we feel that the boy who has worked hard as a youngster has a better chance to develop his muscles than has the boy who has every thing done for him.

RILEY'S PAST RECORD SHOULD WIN HIM VOTES

Ray L. Riley is the republican nominee for the office of State Controller. He is the present incumbent, having succeeded John S. Chambers, who has endorsed his candidacy. Mr. Riley has made a splendid official record, and in the consideration of the voters at the November 7th election.
The office of Controller is one of the most important of any of the state offices, he acting as chief auditor of the state, performing many other responsible duties and being ex-officio member of the State Board of Control, State Board of Equalization and others of importance, including the assessment and collection of inheritance taxes.
Mr. Riley before assuming his present office was State Real Estate Commissioner, which office he creditably filled, and in his present position he has proven his ability to administer the office.
We unhesitatingly recommend Controller Riley to the voters of the County.

GLORY ENOUGH FOR ALL

The magnificent nature of Warren G. Harding and his true conception of the character of American institutions, are well illustrated in his letter to Congressman Mondell commending the work of the present congress. He is one executive who does not belittle the importance of congress, either in its constitutional place in our government or in its personnel. He gladly gives to the legislative branch of the government full credit for its important and effective part it has played in the work of after-war reconstruction.
"President Harding well said, "One must dissent from the too prevalent idea that our plan of Congressional government is not improving equal to the strain of these times." This statement is reassuring to all those people who still believe that the founders of this government wisely in distributing its powers among three coordinate branches. Whatever may be the motive or purpose of the man who indulges in wholesale and unrestrained criticism of congress, the effect in undermining respect for government is none the less anarchistic in its results. To condemn a specific act of an individual member of congress on the basis of reasons, therefore, is one thing; wholesale condemnation of the legislative branch of the government is something entirely different. The former is legitimate discussion of the record of a public servant. The latter is an attack upon the government itself.
A man of small mind, of intense vanity, or selfish ambition, occupying a prominent executive position, might direct criticism toward the legislative branch of the government thus giving relatively greater credit and importance to the executive. President Harding is not that type of man. In his public utterances since he has been in the White House, President Harding has lost no opportunity to indicate his appreciation of the integrity, the intelligence and the efficiency of the legislative branch of the government. He does not assume, as some seem to do, that when he disagrees with members of Congress, they must be fools or crooks.
His example is one that might be followed by other gentlemen who seem willing to draw the illegitimate of public attention to the questions of legal principles to the questions coming before him which ought to characterize all judges but can truthfully be said of few.

JUDGE F. H. KERRIGAN SEEKS ELECTION ON PAST RECORD

Following his nomination at the primary, a state wide campaign has been launched to elect Judge Frank H. Kerrigan an Associate Justice of the Supreme Court at the general election November 7th.
In point of fact, Judge Kerrigan is exceptionally well qualified to assume the duties of the position to which he aspires. For the past sixteen years he has been an Associate Justice of the District Court of Appeal, during which time he has had before him for consideration the same general body of California law as is dealt with by the Supreme Court. The reports of the state courts disclose opinions written by Judge Kerrigan on a wide diversity of subjects. With the exception of the retiring Chief Justice of the Supreme Court he is the author of more decisions than any present member of that body.
Prior to his election to the Appellate Court Judge Kerrigan served on the Superior Bench, and before that as a Justice of the Peace in San Francisco. By reason of this long service of twenty-eight years he has acquired an intimate knowledge of the various branches of law, and a breadth of view in the application of legal principles to the questions coming before him which ought to characterize all judges but can truthfully be said of few.
Judge Kerrigan is seeking election to the Supreme Bench has joined no so-called combination where the influence of two or more contestants is pooled for the benefit of all, but stands strictly on his own merits.

THE WRIGHT ACT

Every right thinking man and woman should vote Yes on the Wright Enforcement Act—number 2 on the ballot. Whether we are for or against prohibition, is not the question. The matter at issue now is whether we want the laws of our country obeyed or whether we want

FRANK ROACH

Frank Roach's qualifications for sheriff are many. First his sterling honesty in all his private transactions will be a valuable help to him as sheriff. Second, his judgment in all business affairs, which plays no small part in the business of the sheriff's office. Third, his unbiased conduct toward the criminal which will allow him at all times to give a square deal to that class which is in his charge.

We believe that the above qualifications are all that is necessary in the conduct of the sheriff's office. As far as experience is concerned it is not to be considered in the election of sheriff. Of the fifty eight counties in California, only eleven sheriffs had any previous experience as police officers.

Give your support to Mr. Roach and in return you will have the satisfaction of knowing that the sheriff's office will be conducted with the greatest efficiency.

Col. Good and Neighbors

made power development possible

COLONEL GOOD and Citizen Thrifty—together with nearly fifty thousand other people, mostly Californians—are the ones who stood back of the P G and E engineers and other employees in developing the present wealth of hydro-electric power.

SUCH MEN AS Merchant Square and Judge Right—the neighborhood fellows you see daily—are the ones who advanced the money to make the development work possible.

This "public partnership" arrangement is a source of pride with the officials of this Company. That the millions of dollars invested in this huge enterprise are only the accumulated small sums of individuals from nearly every city, town and hamlet in the state, is a fact worthy of special emphasis.

THINK OF IT! Fifty thousand people furnish the money to carry on the job—over 8000

people do the work, and 1,700,000 people are served thereby. Here is community co-operation with a vengeance.

WHEN ONE STOPS to consider it, there is small wonder that "Superior" California is so generously supplied with electrical power at the present time. Such teamwork cannot help but bring success.

In view of the fact that this section now has a surplus of power, and that this Company is rapidly developing even more power, it only remains for the people to co-operate in devising ways to make greater use of power in order to hasten a greater prosperity.

One PROPOSITION you can't afford—

Number 24

A Question of Confidence:

FOR THE LAWYERS BILL—Lawyers only.

Why? Because the bill, in effect, would create a monopoly; make their profession more lucrative.

AGAINST THE BILL—Business men generally, bankers, realtors, labor organizations.

Why? Because they believe the bill, if adopted, would force costly to the public, through compulsory lawyers' fees, and burdensome to business by unjust restrictions.

In whom have you most confidence, the bankers and business men of the State—or the lawyers?

The chief argument for the bill has been an absurd attack on banks. Lawyers say you need THEIR BILL to PROTECT you from YOUR BANK. Do you believe it?

In accord with the Assessors of practically all the principal Counties of the State, I have carefully considered Senate Constitutional Amendment No. 31—known as No. 14 on the ballot—to be voted upon November 7th, providing for taxation of FOREIGN notes, stocks, bonds and mortgages. I heartily concur in its provisions and recommend its support at the election, as its passage will result in increased revenue for this County.
